

ACCOUNTS PAYABLE CHALLENGES

Centreviews Solutions:

Businesses across the globe are realizing the benefits of going paperless. Using technology, stacks of paper files can be shredded, making additional space in an office that can be repurposed. Centreviews provides a variety of solutions to everyday business problems.

Audit Challenges?

“Auditors are killing my productivity as I spend hours looking for and finding invoices and supporting documentation audit has requested”

Solution: The Centreviews Payables Solutions allow you to quickly and easily access the requested information and/or images from the cloud based application and respond to requests in minutes

“Are we at an Audit Risk?” When was the last time we updated our processes and control points? Are we following the documented controls?

Solution: The Centreviews Payables Solution ensures that each invoice is processed per your configured controls and tracks the history of each invoice via the stated controls. The Centreviews solution is annually tested by a third party and provides an annual SSAE Report.

Vendor Challenges?

“I am spending too much time answering vendors inquiries as to the payment status of an invoice.”

Solution: The Centreviews Payable Solutions allow managers or vendors to view their invoice status and related payment information via the vendor portal access.

“I am spending too much time answering vendor calls about payment status. The number of calls are increasing every month.”

Solution: The Centreviews Payable Solutions allow vendors to view their invoice status and related payment information via the vendor portal access
